#### EDITOR'S CHAIR.

HOW THINGS LOOK FROM OUR STAND POINT.

The Opinion of the Editor and The Opinion of Others Which we Can Endorse on the Various Topics of the Day,

The partisan papers and the machine politicians are each day proclaiming that the People's party is dead, yet they keep forty speakers, at cost of thousands of dollars a week, canvassing for the great principles of reform. Strange isn't it? Why don't they

We ask our friends to brand the Star, because it knows that ticket and the wrong will be was represented. But in spite can't catch them at or prevent all such charges as false and the railroads, banks, and othdare our enemies to produce the proof. For we have noth ing to fear from the truth.

Three leading Republicans of the United States have lately announced their determination to support Cleveland: Judge Gresham of Illinois, a 1888; Judge Cooley, the leading lawyer of the West, and Wayne McVeagh, a Pennsylvania jurist of great reputaeral under Garfield.—Sampson Democrat.

These men have no right to leave one political party and go to another. They have actcontempt of all good men. Especially should no man change his politics during a campaign.

#### Monopoly Controls the News.

We have charged a number of times that a monopoly composed of a greedy gang of plutocrats owned and controlled the information of the country. Such papers as the Messenger, Star, the News and Observer, Charlotte and Raleigh Chronicles have vehemently denied this charge and criticised us for making it. These papers get their news telegrams from these plutocrats, and they are afraid the people will find it out and stop reading their papers. On this same subject

The Great West says: "We declared, and declare in every public speech, that the Associated Press controlled every mile of telegraphic wire, and furnished the news according to its own despotic notion of truth and lying, to every daily newspaper in the United States. And that it and its minions could compel the dailies to get into the band wagon with them-or perish. And that its hired minions lied at will; misrepresented at pleasure; villified to a brown turn, and suppressed as it seemed best to an organized plutocracy.

"That is what we said—say now-and shall say-until the vile and villainous censorship over intelligence is broken up, free press."

#### Superb Cheek.

The Democratic party has now in the field the largest number of canvassers ever seen in the State. They have over forty speakers going day and night. Their list of appointments fill two columns of fine type in the Raleigh papers, It must cost thousands of dollars each week to keep these speakers in the field. Against | the dark by a crowd of town are reading, quoting from their fight for justice and reall this array of numbers and talent, the People's party has had practically only one speakin the field day and night er in the field for the past six fighting the dead (?) party and weeks. With only one ver. speaker in the field we run out of funds, when a collection of several dollars is taken up for Mr. Butler at the place he speaks. Where the money comes from to keep forty speakers in the field for the machine is NOT a mystery.

#### Their Tricks.

It would not surprise us in the least, if just on the eve of the election the machine politicians were to manufacture and circulate a lot of false charges and sensational reports on the People's party. They may do this through the newspapers or by circulars and letters through the mails to thousands of votes. If this is done it will be so late that the changes cannot be answered and denounced before the day of election. This has been done in other States, and the machine politicians are getting so desperate in this State that it would not surprise us if they stoop to the same low methods here. The machine now has only two hopes left, one is to try to stampede the reformers just on the eve of the election, and if they fail in this, then their only hope is to try to count themselves in. Let the people be on their guard. Eternal vigilance is the price of liberty.

#### What Does It Mean?

One of the ablest Democratic speakers in the State, a Cleveland Elector, said in this town in a speech a few days petent men. We do not charge steal and cheat, but we do charge that they are doing and cheat. Let every freeman guard his liberty at the ballot box on the 8th day of Novemshall be fairly represented in and an honest count of the vote shall be made.

Because you swear by all that is good that you will vote the straight Democratic ticket, doesn't necessarily transform you from a morally low and mean nature, into an ideal of perfection, too good to associate with gentlemen. Nor will it do for the soul saving medium.

Some of our "straightest" friends seem to think that the shortest road to rascality, vice and crime is to exercise your right as free men and vote for the principles you believe in, instead of being led by the nose as you always have been. If they are to be believed isn't there a shower of we rascals?

Mrs. President Harrison died of Consumption last Tuesday night.

Why are the Democrats advertising that Mr. Butler will speak at many of their ap hear their speakers.

No party has ever done more for the people than it promised to do. Neither the Democratic nor the Republican party in their national platforms denounce the greatest evil nor promise a remedy. Then how can you vote for either. The way to get relief is to vote for it. The way to condemn evil is to vote against

If there is anything in a sign like this, then the People's party will whip the Democratic party out of its boots in this State.

The Democrats are doing some tall lying about the size of the crowds out to hear their speakers. We have frequently seen reports published from the meetings of Carr and Jarvis, saying that they had from 500 to 1,000 to hear them. We have gone to the trouble to ascertain the facts, and learn that they often have only from 100 to 200 to hear them. The fact is the Democratic speak ers are having pitifully small crowds and but little enthusiasm. If they did not have charge of the election machinery and adopted to count themselves in they would give up the fight now. There is no denying thefact that the majority of this state is for the People's party. Let every reformer go to work with renewed energy. Work till the polls close and then see that your votes are counted.

ANOTHER CAMPAIGN LIE.

The News and Observer reproduces the following from the Goldsboro Headlight:

"The charges we brought against Butler about his receiving a check of \$300 from the National Republican Executive Committee can be amply sustained by most excellent authority. Two weeks ago when "Mariann" was at Concord another check for the same amount was received by him, which Col. Tipton, of Shelby, dares him to deny. Ain't he a nice one to follow."

We do deny the charge and dare "Col. Tipton" (whoever he is) and the lying scoundrel who publishes the Headlight to sustain their charge with proof. If the editor of the News and Observer reproduced the above lie knowing the character of the author, then one is as guilty as the other.

#### Two Great Issues.

The income tax which the Republicans (with the aid of some Democrats) repealed. raised \$66,000,000 a year. In We spoke to a good crowd 1878 a Democratic House refused to put back this tax (Maj. Robbins and Col. Wad dell voted with the many powers against the people.) In 1892 a Democratic House with 148 majority refused to pass the Income tax. There are now over ten million airs where there was one then. So if this tax on millionairs was put back it would raise enough money to run the government. Yes if this Income tax were put back the handsome tariff could be reduced to at least eight or ten sper cent. When Democrats talk about taking taxes off the poor man, ask them why they did not pass the Income tax, put a tax on rich men so the tariff could be lowered. This proves that the Democrats are not honestly in favor of tariff reform.

2. When Democrats say that they are in favor of more money, and an honest currency ask them why the last congress did not do something on that line. Ask them why they not only refused to let it be discussed, but then why do they not oppose national banks in their national platform. If they say they want to repeal the ten per cent tax on State bonds, ask them why they did not do it in last congress. Remember, lower taxes and more money, are the great issues in this campaign. The People's party is the only one making an honest fight for them.

#### WATCH THE LEGISLATIVE BOXES.

Be sure to watch the Legislative boxes on the day of the election. The machine will be more apt to cheat there than The Buffalo, N. Y., News in the other boxes. There is "Handsome is that handsome does," and if Hood's Sarsaparilla doesn't do handsomely then nothing does. Have you ever tried it?

#### Jeffersonian Democracy.

The Democrat who is in favor of purity and simplicity, the following will certainly satisfy him, so we will call Thomas Jefferson to the stand, through his publication and propound to him the following questions:

Q. Thomas Jefferson take the stand, and tell us what is pure democracy?

A. Page II, volume I, democracy is a system of government where all public franchises are exercised by the people, in the interest of the people.

Q. Mr. Jefferson what is the opinion of democracy with reference to the government issue and control of money?

A. Volume VI, and page 199, "bank paper must be suppressed and the circulating medium must be restored to the nation to whom it belongs. It is the only fund on which the people can rely for loans. It is the only recourse which can never fail them."

Again volume VI, page 488, 'Put down the banks and if this country could not be carried through the longest war, against the most powerful enemy without ever knowing the want of a dollar, and without dependence upon the traitorous class of her citizens (the capitalists) and without bearing hard upon the resources of the people or loading the public with debt, then indeed I know nothing of my countrymen."

Again on page 605 and in Volume VII, we find these parting words: "I sincerely believe, that banking establishments are more dangerous (to a republic) than standing armies and that the principle of spending money, to be paid by prosperity, under the name of funding, is but swindling on a large scale."

Let us now call Andrew Jackson to the stand and ascertain his opinion of pure democracy:

"Andrew Jackson take the stand and tell us the principles of pure democracy.

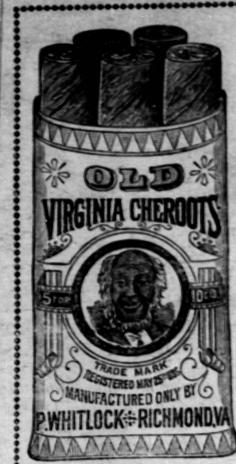

"I recognize the published works of Thomas Jefferson as embodying the principles of pure democracy. I believe standing armies and by the eternals the banks shall be put down, and the constitutional power of Congress to create money shall not be exercised in the interest of a favored few." (Jackson's speech delivered at Baltimore, Md. 1832.)

#### A GRAND OVATION.

#### Mr. Batler Royally Received by his people.

Last Saturday Clinton was honored with the presence of more of Sampson's sturdy sons than have been gathered together at one time -We hope to be able to send a during this campaign. Though well advertised appointments have been filled by a Care, a Jarvis and a Ransom. The news of Mr. Butler's appointment caused the greatest ingathering of the season, to welcome home this worthy, honored and highly respected son of the grand old county of Sampson. He was met at the depot by about three times as many mounted men as escorted Senator Ransom into our town a few weeks ago. This was the grandest reception ever given to a citizen of Sampson by her people. Mr. C. B. Aycock had accepted an

invitation to be present and discuss the issues with Mr. Butler. It must have been a surprise to Mr. Aycock to see how Mr. Butler stood, as a leader, in his own county; that is, if he had attached any importance to the lying reports that have been circulated to the effect that Mr. Butler was so unpopular that he couldn't get half a dozen votes for any office in his county. The time agreed on by the speakers was an hour and a half with a rejoinder each.

After being introduced by Mr. Henry E. Faison, Mr. Aycock led off in fine style. He is well known to our people and is loved and respected to a great extent. He is a fluent and graceful speaker. We were glad to see him discuss the issues during his first speech fairly and gentleman like; he avoided the low and cowardly way of ignoring the issues of the campaign by dealing in personalities, as is customary with Mr. Jarvis and Col. Glenn. Mr. Avcock is, no doubt, the champion of the many Democratic speakers who are now on the stump in North

Carolina. When Mr. Aycock concluded his remarks, Mr. J. E. Fowler very gracefully introduced Mr. Butler as Sampson's greatest son. Mr. Butler himself. Well, we suppose this is arose and addressed the crowd, but natural, as we are told that thieves the crowd cheered so loud, and so continuously that he had to take his seat. After a few minutes quiet was again restored, and Mr. Butler arose for the second time and poured forth the truth to the people in a masterly and fearless manner. At times his voice would be drowned by the continuous roaring of the crowd. His speech was all that could be expected of any man, and the expectations of his friends were more than realized. He left no stone unturned, and the Chicago platform, though so ably defended by Mr. Aycock, could not stand the test of Mr. Butler's criticism, and was over-ridden by the platform of the People's party that was so forcibly presented by Mr Butler, as containing the principles of Democracy as taught and advocated by Thos. Jefferson and Andrew Jackson. We are sorry to admit that Mr. Aycock descended from the recognized high plane of debate, and took up the time of his rejoinder in discussing things of a somewhat personal nature, which is a true sign of defeat. This however, pleased some few of our people, for they had rather hear Butler discussed any day than hear the platform of either party discussed. They have nothing against him, only that he was once a strong advocate of the Democratic party, and is now advocating another. According to their doctrine a man becomes a patriot the minute he leaves the Republican or People's party, but let a man join the People's party, and they are ready to brand him a rascal, and a traitor. Funny ain't it? Mr. Butler's speech was heavily loaded with facts, and his remarks were well directed. Everyone making an impression on the minds of the people that will be there on the 8th day of November and prompt them to vote the People's party ticket straight through. Mr. Butler asked every man who voted for Weaver twelve years ago

to hold up their hand; only one hand went up. He then asked everybody who would vote for him on the 8th of November to raise their hands. At this request hands went up by the hundreds. Sampson is

ed with handsome bouquets of well selected flowers. E. M. P.

#### May We Be Excused.

Will our friends and readers excuse us for just this once, and allow us to descend from a plane of decency and respectability, for a few minutes, for the purpose of getting down in the scums of nothingness, with "Bear Swamp," by condescending to notice the writings of that "Swamp Bear," who had the audacity, without having sense enough to know who he was lying on, to come out again, and further disgrace the Sampson Democrat by hold of his audience and carried publishing his low, mean and inhuman thoughts, so full of dastard insinuations against the Local Editor of this paper? If we are excusable, we will proceed to explain to our readers the circumstances which has brought to light this volume of lies and cowardly insinuations of Bear

One day a friend called at THE CAUCASIAN office, showed us a short piece he had written in answer to "Bear Swamp's" account of the Warsaw speaking, and asked that it be published. We glanced at the article, saw that we could endorse the statements he made about the speaking, and then told him that it would appear in the next issue. As it was not our own production, we marked it "contributed." We are indeed sorry to see a man who claims to have read the works of Dacwin, and yet hasn't got sense enough to know the meaning of that simple truer friend and greater champion word. To take up his article and answer it line by line, would be displaying less sense than we are generally credited with, and besides we would be stifled to death by trying to stay in the impure and unwholesome atmosphere breathed by him long enough to answer in detail.

Though it be ever so unpleasant we will notice a few things mentioned by "Bear Swamp." He is liberal enough to think there were present at the speaking other liars besides think everybody else will steal. The flag he referred to as being behind Dr. Thompson was removed before the speaking began. Dr. Thompson might have been responsible for the boy (if he was a boy we would like to see the men where he came from) being pushed off the fence, for that man might not have been at Warsaw if he hadn't thought Dr. Thompson ery voter. or some one else would speak. But as for him saying that he was advised by Dr. Thompson to push him off the fence, is emphatically denied by the man, and we have his word for it. We don't want any names that might be suggested by Bear Swamp, for fear they might have been, at some time so unfortunate as to be associated with him, and thereby be condemned as was "Tray" when he was found in bad company. As for the good dinner he referred to, will say that we didn't eat any dinner at all on the day that we suppose he has reference to, while we were in the lovely little town that he so his presence.

"Tis true that we have eaten several good dinners in his town free of charge. Not because we didn't offer to pay for it, but because our friends positively refused to accept pay. Now "Bear Swamp" we want you to understand that when we do eat dinner in your town we go to the home of a christian gentleman, and not to he den of a "Swamp Bear." We will now leave this hideous root and death, while we go and again join our friends who have so patiently waited for us while we have visited this loathesome animal.

P. S. Our friends said they would excuse us if we wouldn't condescend to notice him any more.

#### Joint Discussion at Fayetitville Between Butler and Glenn.

(Prog. Farmer.) FAYETTEVILLE, N. C. Oct. 10.

MR. EDITOR:-On last Friday from 1,500 to 2,000 people met here to hear Butler and Glenn discuss solid for the People's party. Both speakers were presentthe great isssues in this campaign. I had been seeing from the partisan papers that Glenn had been getting the better of the discussion, and felt a little uneasy, as I am an enthusiastic People's party man. Glennled in the discussion. He is a man of fine address, and a fluent and im-

bad a serious and determined expression (I afterwards learned that he had just received a telegram from Clinton stating that his newspaper office THE CAUCASIAN, and everything he owned was that morning destroyed by fire, and that he had no insurance.) The large crowd got very quiet. Butler begun in a slow, impressive manner. In five minutes he warmed up to the combat and had captured his audience. Democrats as well as People's party men saw that he was more than a match for his competitor. For an hour and a half he grew more earnest and eloquent with each sentence. He took them with him, with his humming words of truth and sledge hammer logic and facts, never using a joke nor stopping for pent-up applause. The effect upon the audience, was wonderful. He pictured the condition of the country, showed how it had come from bad laws; he dissect- the four lines of Goods I haned the platforms of the two old par- dle. ties, showing that neither offered the people the relief and justice which the people n eded, demanded and would vote for. He held up the Omaha platform and showed the remedies it offered commensurate with the wrongs done and the evils existing, without abusing either of the other candidates. He then took up Weaver and showed his true record; he showed that there had not lived a man who had shown greater courage for his conviction or greater ever brought to Clinton. I devotion to principle. He show ed that the principles he advocated were to the interest of the wealth producer, laborer and men in all honest callings, North, South and everywhere. showed that there lived to-day no or the people's rights than Gen. Jas.

B. Weaver, Mr. Butler's speech was one of the finest efforts we have ever heard, and despite the lying reports of the daily papers, we state the cold, unvarnished truth when we say that Glenn is no match for him in debate. Votes were made for the People's party and we will carry Cumberland county. Mark it. If Mr. Butler could make that

Based upon the best authority—the United States Census -the following table of wealth and wages, extending from 1850 to 1890, inclusive, will give a fair idea of the rapidity with which the wealth of the country is passing from the hands of the producers into those of the non-producers. #### GEN. WEAVER AND THE MILITARY CONTRIBUTION

The Confederate and Democratic Side.

(From Progressive Farmer. MR EDITOR: - "General Ear ly levied a contribution on the citizens of York, Pa., obtaining among other things, \$28, 600 in United States currency, the greater part of which was turned over to Col. J. L. Corley, chief quarter-master Army of Northern Virgia; 1,000 hats, 1,200 pairs of shoes and 1,000 pairs of socks were also obtained here."—Lt. Gen. R. S. Ewell's Report, 2d Corps. Rebellion Records, p. 443.

"The authorities of Gettysburg declared their inability to furnish any supplies, and a search of the stores resulted in securing only a very small quantity of commissary supplies, and about 2,000 rations were found in a train of cars, and issued to Gordon's (Ga.) #### Grover Cleveland's Record in Favor of "Mixed Schools."

The following is an authentic and correct copy of a stats ute of the State of New York establishing "mixed schools" in the city of New York. This bill was approved by Grover Cleveland, Governor of the State of New York, in May, 1884. These schools now exist. He thereby committed himself to both the principle and policy of "mixed schools:"

Laws of the State of New York Passed at the one hundred and seventh session of the legislature, begun January first and ended May sixteenth. 1884, at the city of Albany.

Chapter 248, Page 307.

In Action in relation to public education in the city of

New York, represented in the Senate and Assembly, do enact as follows.

SECTION 1. The colored schools of the city of New York now existing and in operation, shall hereafter be classed and known as ward schools and primaries, with their respective teachers, unless such teachers shall be removed in the man, ner provided by law, and offis cers in their respective wards in which they are located in the same manner and to the same extent as other ward schools, and shall be open for the education of pupils, from whom admission is sought, without regard to race or color.

SEC. 2. All acts or parts of acts inconsistent with the provisions of this act are hereby repealed.

SEC. 3. This act shall take effect immediately:

#### Senator Stewart,

The papers from the West bring glorious news about the growth of the People's party in the Northwest. There is practically but one party there now-that is the party of reform. The Alliance Independent has the following about Senator Stewart and the brave fight he is making on prin-

"Senator Stewart, Republican, of Nevada, has been one of onebravestand ablest advocates of the free coinage of silver. Now he proves himself to be one of the men who will stand by principle, rather than party when he is forced to choose. He is making speeches for Weaver In his speech last week he said: "Harrison was an enemy to silver coinage and would, without question, veto the measure whenever Congress passed it. This being his conviction-regarding free coinage as the measure above all others his State and country need to restore their waning prosperity-he would be false to his country and false to his people if he did not urge the Republicans of Nevada to repudiate Harrison and vote for General Weaver.
